

About The Tournament

We are proud to present the 20th Annual Financial Service Professionals Golf Outing. This event is being brought to you through the efforts of the SW Michigan Chapter of The Society of Financial Service Professionals.

Over the years, the goal of the Society has been to promote education and professionalism within our industry and to enhance the abilities of our members to better serve the communities of Southwestern Michigan. Through your participation in this event, we are able to offer continuing education credit programs to financial professionals throughout Southwestern Michigan. These classes and programs are held through the year to enable the financial professional to receive required State of Michigan continuing education credits, CFP, CPE and PACE requirements.

Your participation in this year's event is greatly appreciated and on behalf of the Society of Financial Service Professionals, please accept this invitation to golf, dine and have fun with members of our industry and their friends.
